## EDUCATION

---

### Partido State University

Goa, Camarines Sur, Philippines

*Bachelor of Science in Information Technology*

- Dean's Lister
- Vice President, Peer Facilitator Group — 2022–2023
- Representative, Nextgen Information Technology Enthusiasts (NITE) — 2022–2024

## SUMMARY

---

Recent BSIT graduate with hands-on front end and mobile development experience across several independently built and shipped projects using React, React Native, and Tailwind CSS. Comfortable working across the full stack from UI to backend integration (Supabase, Node.js), with a track record of taking projects from concept to a working, deployed product as lead developer. Currently expanding into Next.js and quick to pick up new frameworks and conventions. Also brings 486 hours of IT support experience covering systems administration and technical troubleshooting.

## PROJECTS

---

### GanApp

*Lead Developer — Web & Mobile Event Management and Verification System*

- Built and shipped a cross-platform mobile and web app for secure event participation and attendance tracking, using React Native for mobile and React for web
- Implemented QR-based check-in, photo submission, and survey features used for real event tracking
- Built a responsive UI and backend using React, React Native, Tailwind CSS, NativeWind, and Supabase

Repository: [github.com/Barneycle/GanApp](https://github.com/Barneycle/GanApp)

### GameThrough

*Lead Developer — Static Game Walkthrough Website*

- Built a fast, modular front end presenting structured game walkthroughs, focused on clear content organization, readability, and navigation
- Built using Vite + React for fast builds and component-driven development

Repository: [github.com/Barneycle/GameThrough](https://github.com/Barneycle/GameThrough)

### Usability Heuristics Evaluation System

*Lead Developer — HCI Project*

- Developed a static site analyzing an existing system against Nielsen's 10 usability heuristics
- Documented usability issues, design strengths, and improvement recommendations, applying HCI principles to real-world interface design

Repository: [github.com/Barneycle/hci2ProjectEvaluation](https://github.com/Barneycle/hci2ProjectEvaluation)

## EXPERIENCE

---

### Aretex — Makati, Philippines

486 hours

*IT Support Intern*

- Deployed and configured Windows 11 across a fleet of workstations, including BIOS-level configuration for standardized imaging
- Maintained and tracked IT assets using Jira Assets, including CSV imports and custom automations for asset lifecycle tracking
- Administered user devices and access through JumpCloud, managing account provisioning and device binding
- Diagnosed and resolved hardware/software issues in a fast-paced enterprise environment

## SKILLS

---

**Front End:** HTML, CSS, JavaScript, React, Next.js (learning), Tailwind CSS

**Mobile:** React Native, NativeWind, Expo

**Backend & Database:** Node.js, Supabase, MongoDB

**Tools & Platforms:** Git, GitHub, VS Code, Figma

**IT & Systems:** Windows 11 deployment, JumpCloud, CrowdStrike Falcon, Jira Assets
